

Baseline Testing (Concussion Management) Instructions

Note: Please ensure that the test is taken in a quiet room with no interruptions, with adult supervision (coach, parent, trainer, etc.) in a monitored and supervised setting. The test should be treated like an exam. Please remove yourself from any distractions that might affect your concentration. This program has a built in response device that picks up on the subtleties of response. If a player conducting the test is not responding at a 100%, the test will come up invalid, and you will have to re-take the test under supervision.
